I looked up the method detection limit and it is listed as 3.7 ppb. Wonder if they can reach it???

My phone was dead today so just received your voicemails. We are working on a response to this. On issue is our instrument crashed so I think the analysts were working on arranging repairs and didn't get to these questions yet.

Subject: Dimock Lithium Result questions

Hi Cindy,

We are still trying to evaluate the lithium results and decide the next course of action. So I have a few questions which I will need to provide answers by Monday.
